

Fibrelite Lightweight Pedestrian Lids

Designed for pedestrian trenches, manufactured from high performance polymers and engineered to outperform similar products made from concrete and fiberglass reinforced concrete materials, these lids are lightweight, yet tough enough to withstand harsh field conditions.

Fibrelite Lightweight Pedestrian Lids

Engineering Specifications & Benefits

- Lightweight FRP composite construction
- Chip and crack resistant
- Safe, fast manual removal and replacement with the Fibrelite FL7 lifting handles
- Freeze / thaw cycle impervious
- Non-conductive
- Chemically inert
- Exceeds service requirements
- Anti-slip / anti-static surface
- Non-corrosive
- Custom colors available
- No scrap value
- Weather resistant
- Maintenance-free
- UV stable
